Hi Mathieu, as you are aware we have been concerned about the illegal occupation for the Rideau/Sussex intersection for weeks now. That concern is growing to fear as it appears the protesters seem to continue to fortify the area with no resistance or intervention from authorities.
They have realigned the semi trucks and created a secondary barrier with winnebagos. They continue to supply fuel and supplies, and over the weekend Police even allowed a pumping truck from Lameroux pumping in to empty their portable toilets.
On a side note, Lameroux Pumping had parked a red pick-up truck in my underground parking with a diesel fuel supply tank in the back and protesters were going back and forth filling portable gas cans and carrying them out to the demonstration. I personally called 911 at 10:30am yesterday as this kind of activity (open fuel transportation and distribution in an enclosed space) poses a tremendous risk to my property and people. Police did show up and waited for the individuals to return. We had also requested a tow from bylaw as this is private property. That truck is still in my parking lot and I was not supported by by-law. It's been over 24 hours.
